Subject: Waste Disposal

135191

I have arranged with Mr. Himmelberger to have Mr. Thomas Iezzi, who is our waste disposal engineer at Bristol, visit Whitmoyer on Tuesday, September 22. I plan to accompany him on this visit. We will expect to be in Myerstown between 9:00 and 9:30 a.m. Mr. Iezzi is involved with not only our biological decomposable waste matter, but also other chemical waste handling and is quite active in a number of the State associations having advisory capacity on the various pollution policies in the State.
